AMENDMENT

BOX AMENDMENT Assistant Commissioner for Patents Washington, D.C. 20231

Sir:

Please enter this response to the office action dated October 9, 2002. A marked up set of amended claims is provided below. A clean set of replacement sheets, including the amendments put forth in this response, is attached hereto.

In the Claims:

- 1. (Amended) A method for representing addressing information in a communication system, the method comprising apportioning at least one address into a first portion and a second portion, and encoding the first portion of the at least one address using a regular expression representing an attribute of the first portion of the address and using the regular expression in place of the first portion at least one address.
- 2. The method of claim 1, wherein the at least one address comprises at least one X.121 address.
- 3. (Amended) The method of claim 2, wherein using the regular expression in place of the at least one address comprises storing the regular expression in a <u>first portion of a</u> source address field of an address configuration table.
